COLOUR BUDGERIGAR PICTORIAL STANDARD

Body

Length 17.5 cm

Tail

The Ideal Length is
between 17cm and 18cm

WBO STANDARD OF PERFECTION FOR COLOUR BUDGERIGARS

1. COLOUR: 25 points

To be as described in the Colour Standards. Emphasis should be placed on a pure uniform colour throughout the entire body.

2. VARIETY MARKINGS: 15 points

On cheeks, back of head, neck, wings and tail to be as described in the Colour Standards.

3. MASK AND SPOTS: 10 points

The mask must be clear and, where demanded by the standard, comprise of six regularly spaced small round spots, the outer two being partially covered by the cheek patches.

4. CONDITION: 20 points

Condition is essential. Perfect show condition can be described as a bird that is complete in feather. The feather should show the bloom of good health and good preparation. Any bird not in perfect show condition should be penalised.

WINGS

The wings must contain seven visual primary flight feathers fully grown and carried just above the cushion of the tail and not crossed.

TAIL

Two primary tail feathers in a tight straight line with the body.

5. SIZE & LENGTH 20 points

The ideal length is 17 to 18 centimetres from crown of head to the tip of the tail. Sizes below must be penalised. Sizes above must be severely penalised.

6. POSITION & SHAPE 10 points

The position to be at an angle of 45 degrees to the perch. The bird to be active and natural. Body well-proportioned and solid to give an elegant slender shape. The chest should blend smoothly without being prominent to the line of the abdomen which should not appear sunken.

NECK

The neck must be thin and break the line between the head and the body creating a hollow effect.

BEAK AND CERE

To be small and slightly protruding from face. The upper mandible to completely cover the lower mandible.

EYES

To be bold and bright and positioned towards the front of the head and not covered by feathers.

LEGS AND FEET

Legs to be straight and strong. Feet to have two front toes and two rear toes with claws firmly gripping the perch.

GUIDELINES FOR JUDGES - DEFECTS TO BE PENALISED

CONDITION:

Incomplete feathers/plumage (bird moulting, skin complaints, scabs etc.)

Soiled plumage.

Ruffled plumage.

Bleeding wounds.

Any deformity.
